The **Master of Applied Econometrics** is a two year program that focuses on the practical application of econometric modelling techniques. It combines coursework and research components to equip graduates with the skillset required to guide and inform economic decision making in a data-driven manner. The course will provide a comprehensive curriculum covering core microeconomics and macroeconomics and a suite of econometrics offerings including time series analysis, financial econometrics, microeconometrics, macroeconometrics and structural econometric modelling.
GET THE MOST OUT OF YOUR STUDIES AT MBS

• Plan your studies
• Do your reading and class preparation
• Ask questions in class
• Participate in team activities
• Follow assessment guidelines
• Read your university emails - they contain important information
• Approach staff if you need help

REMEMBER:
• We want you to succeed and are here to facilitate your learning.
• The more you put in to your studies, the more you will get out!
BE AN ACTIVE LEARNER

WORKLOAD

• Every student should devote no less than 9 hours study per subject per week outside of the classroom.
• A full-time study load of 4 subjects per semester requires at least 48 hours study per week (12 hours in class + 36 hours outside of class).

STUDY SKILLS

• The University’s Academic Skills team provide online resources, workshops and individual tutorials to improve your study skills and help you reach your academic potential.
• Visit the website for more information: services.unimelb.edu.au/academicskills

The **Master of Applied Econometrics** is designed to be completed in two years of full-time study.

The program requires completion of 16 subjects (200 points) comprising 9 core, 5 electives and 2 capstone subjects.
Students enrolled in the Master of Applied Econometrics who are either unable, or who choose not to continue with their studies, may be eligible to exit with a Graduate Diploma in Applied Econometrics.

Students must have successfully completed a total of eight Year 1 subjects from the Master of Applied Econometrics, comprised of three core economics and five core econometrics subjects.
A math intensive will run from the 20th February - 2nd March for graduate economics students.

The intensive is intended for students who do not have a formal mathematics background beyond high school or need to brush up on their skills, and will cover a broad range of mathematical techniques commonly used in higher-level economics.

My Unimelb is your personal portal to your enrolment (study plan) and email. It can be accessed at my.unimelb.edu.au using your University email account username and password.

After your have completed your online enrolment, you can use My Unimelb to register for classes, change subjects and even update your address details.
CREATING YOUR CLASS TIMETABLE

- Students must enrol in subjects for the whole year
- Once enrolled, you must register in classes for Semester 1 only
- To register, log into the student portal my.unimelb.edu.au and select your preferred classes from the options available

PLEASE NOTE:

- If you are unable to register for an elective because classes are full or clash with another subject, you must choose a different elective.
- If you are unable to register for a compulsory subject because classes are full or clash with another compulsory subject, log a CREM request.

ADVANCED STANDING

What is Advanced Standing?

Students who have completed *undergraduate-level* subjects that are equivalent to compulsory MBS subjects (foundation or core subjects), may be granted subject *exemptions*. This does not reduce the number of subjects you must complete, but allows you to take electives in place of the exempted subjects.

Students who have completed *graduate-level* studies that are equivalent to compulsory MBS subjects may be offered *credit*. Credit *does* reduce the number of subjects a student must complete.

If you have been granted Advanced Standing:

- This will be stated in your *Letter of Offer* for the program.
- Students with an exemption should submit an *Enrolment Variation Form* to replace the exempted subject with an elective subject.
You will need a UoM student card for administrative transactions, proof of identification for exams, access to study spaces and your library account. You should have your student card with you whenever you are on campus.

How to get your student card

You will need to:

1. Complete your course enrolment, including enrolling into subjects.

2. Upload your photograph via the CaptureME portal.

3. Wait for a confirmation email (this can take up to 24 hours). The email will let you know how to receive your student card (i.e. via post or collection).
