## NOTES

\*\*Capstone subject IBUS90001 Global Corporate Strategy must be taken in the final semester of study.

### Choosing a finance or accounting foundation subject:

FNCE90065 Fundamentals of Finance and ACCT90041 Fundamentals in Accounting are recommended for students with no or very limited prior finance or accounting knowledge who are looking for a single subject that provides an introduction to finance or accounting, but who do not intend on taking further studies in that discipline.

FNCE90060 Financial Management and ACCT90004 Accounting for Decision Making are recommended for students with no or very limited prior finance or accounting knowledge who are looking for a deeper foundation that enables them to take more advanced subjects in that discipline.

### Electives

Students must choose 3 elective subjects from the graduate offerings within the Faculty of Business and Economics.

Students enrolled in the Master of International Business are eligible to undertake a select range of elective subjects from the Master of International Relations (up to a maximum of 37.5 points) offered by the Melbourne School of Government.

Students are permitted to take as one of their electives (maximum 12.5 points) a foreign language subject i.e. one in which they are a non-native speaker. Students do not require permission from the MIB program director to undertake a language subject, but must undertake Language Placement Testing. For details, please see:
